LinkedIn: linkedin.com/in/mohidul-islam
GitHub: github.com/lazy-mohit

Skills

Language:	Python, Java, SQL, C++, JavaScript
ML Tool:	PyTorch, TensorFlow, Keras, Scikit-learn
Web:	Django, Flask, REST, Express.js, React.js, Nginx.
Database:	PostgreSQL, MySQL, Redis
Library:	NumPy, Pandas, Matplotlib, NLTK, SpaCy
Others:	Git, Docker, AWS, Heroku, Selenium, Unit Testing

Experience

Present

Jr. Software Engineer
| **Byte Trek Limited**

Nov, 2019
- Fine-tuned BERT model in Pytorch for text classification with **93%** accuracy.
- Deployed machine learning model on Linux-server via REST API with Flask.
- Build web services in Django to pull Google & Facebook reviews and reply those automatically.
- Designed and developed an Admin Dashboard using Django and Chart.js.

Education

Nov, 2019

B. Sc *in Computer Science & Engineering*
| **National University, Bangladesh**

Apr, 2015
- Got 300+ accepted solutions at various Online Judge.
- Participated in the NCPC Programming Contest in 2018.
- Host multiple online programming contests on campus.

Completed Online Courses

Specialization

Sep, 2020 **Natural Language Processing Specialization**, a 4-course program by deeplearning.ai.

Aug, 2020 **Deep Learning Specialization**, a 5-course program by deeplearning.ai on Coursera.

Standalone Courses

Dec, 2018 **Introduction to Machine Learning**. on Udacity.

Jun, 2020 **Intro to Deep Learning with PyTorch**. by Facebook AI on Udacity.
